Figure 2-3 Surface Water Monitoring Locations.pdf;

Chairperson Friday,

Arcadis, on behalf of Tyco Fire Products LP, will be conducting quarterly sampling and gauging events in the area next week (starting 4/21) consistent with our WDNR-approved monitoring plans and our current access agreement. The attached figure summarizes where sampling and gauging activities will be conducted. As always, results from sampling within your right-of-way will be provided within 10 days of receipt of final data from the laboratory and it will also be included in future reports to WDNR.

Thanks,

Matt

Matthew Coleman (he/him)
