

7/2/21

Mayor Genisot,

I am in receipt of the Resolution you have scheduled for your Tuesday, July 6th City Council Meeting. I would respectfully request that you please reconsider proceeding with it. As you are aware, the Town of Peshtigo has had a new Town Board in place for only nine weeks and in that time, we have had to take several steps to gain our footing, including the hiring of a new Municipal Lawyer, acquiring legal records and being briefed by the Towns previous Environmental Firm.

In an effort to reduce miscommunication the Town has taken the initiative of coordinating a Water Summit, which was widely reported in local media, with the objective of bringing all stakeholders together to one table to identify shared goals and perceived roadblocks. If the catalyst for this Resolution is the City not having received a request from the Town toward engagement on the matter, please allow this letter to satisfy that concern.

As you can well imagine, the Town would certainly hate to see the City of Marinette back out of consideration toward being a forthright partner in this process. I am hopeful the City is interested in being a good neighbor and would at least consider an honest discussion before removing itself from the conversation.

Please reconsider this matter with empathy and wisdom at the forefront of your decision making.

Respectfully,  
Cindy Boyle  
Chairperson - Town of Peshtigo
