Town of Peshtigo Board of Supervisors  
c/o Town Clerk  
W2435 Old Peshtigo Road  
Marinette, WI 54143

Dear Chairperson Boyle and the Town of Peshtigo Supervisors:

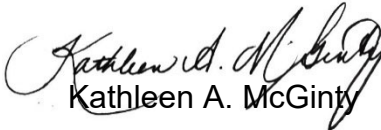

As you know, Tyco Fire Products LP ("Tyco") and several other parties, including the Town of Peshtigo, have been working toward a permanent drinking water solution for the members of the Town who are located in the Potable Well Sampling Area ("PWSA"). That work has included multiple discussions and meetings, conversations with residents and recently several facilitated meetings among the Town, City of Peshtigo, City of Marinette, DNR, and Tyco. We believe that work has been valuable to help all the participants understand the options and to provide additional information to the residents of the PWSA.

In order to facilitate the Town's involvement in these discussions, Tyco and the Town entered into a Reimbursement Agreement to pay legal and expert costs incurred by the Town for the purposes of evaluating drinking water solutions in the PWSA. To date, Tyco has reimbursed the Town \$55,445.82 in legal and consulting costs.

Pursuant to Paragraph 7 of the Reimbursement Agreement, Tyco hereby terminates the Reimbursement Agreement. As provided in the Reimbursement Agreement, Tyco will continue to reimburse appropriate fees incurred up until this date of termination.

We understand that at its Special Meeting on March 10, 2022, the Town Board voted to engage legal counsel to explore options to bring litigation against Tyco. We are disappointed in the Town's action, but Tyco will continue to work productively with the affected residents and other parties to identify and implement a permanent drinking water solution.

Sincerely,

  
Kathleen A. McGinty
